WHAT ARE YOU GOING TO DO ABOUT IT?

The demand for capable teachers, engineers, farmers, agricultural experts, physicians, trained business men and women, is great now and will be greater after the war.

The Government is calling for more trained men and women every day. This call can't be met unless boys and girls of the State go on with their education.

The reasonable and efficient way to get ready for this service is to go to college.

The University of Kentucky offers superior advantages in equipment, staff and low cost. For information address,
